## IN-EAR HEADSET

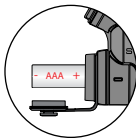

**(1)** Pinch foam and apply ear plug to stem of ear bud

**(2)** Insert ear plug into ear canal and position ear retainer in ear

(1) Connect CLARUS to radio and turn radio on

(2) Insert a single AAA battery

(3) To turn the system on, press and hold the center key for 5 seconds

(4) Press center key to increase / decrease Hear-Thru sensitivity level

(6) To turn the system off, press and hold the center key for 5 seconds

**VP** = Voice Prompt

**!** Warning: Prolonged use of Maximum Hear-Thru volume could damage your hearing.

NOTE: In HAHO/HALO and strong wind environments, it is recommended to decrease the Hear-Thru to the lowest level.
