- Single comms LEO system with in-ear mic
- Plug and play simplicity
- Fixed radio connection
- Electronic hear-thru for full situational awareness
- Left or right-heanded PTT function

V CLARUS PRO

- World's smallest and lightest tactical headset system
- Active hearing protection
- Mobile phone audio & comms
- Safe sound hear-thru
- Low profile comfort
- Plug and play simplicity

VI CLARUS PRO LITE

- Hearing protection and enhancement for users without a radio
- Electronic hear-thru for full situational awareness
- Low profile, lightweight systems
- Internal AAA battery

ABOUT SILYNX

Silynx Communications is a world leader in tactical, in-ear hearing protection and communications systems. Our headsets have been field-tested and combat proven for nearly a decade. Silynx headsets can be used in any mission setting, mounted or dismounted, airborne, or maritime. Silynx headsets protect against both impulse and steady-state noise, offer 360° situational awareness, provide reliable and clear communications in dynamic noise environments, and serve as a modular platform that can be tailored to the users' mission requirements. Silynx provides users with an unequalled operational edge, enhancing lethality and situational awareness.
